

CROMWELL®

ER1 EMERGENCY AND RESCUE HELMET

Integrates comfortably with other USAR protective equipment and accessories

Multi-adjustment, lightweight and low profile for comfort and ease of use

Choice of colours, trims, badging and rank marking options available

Compatible with CBRN and public security personal protective equipment

1 The browband position can be easily adjusted between three positions - moving the browband forwards and backwards, to achieve the best fit on the forehead

2 The browband position can be easily adjusted up and down, to achieve the best fit between the helmet and the respirator facemask, and any protective hoods

3 The headband size adjustment is easily made by turning a ratchet handwheel which is sized for use by gloved hands and locks in position until released by pressing a central button

4 The quick release chinstrap can be adjusted for different wearer sizes. Additionally thicker internal crown pads can be fitted if necessary, for small head sizes

CROMWELL® ER1 HELMET - PROVIDING PROTECTION FOR EVERY EMERGENCY

The Cromwell ER1 Emergency and Rescue Helmet meets the demand for the increased protection of personnel involved in a wide range of fire, emergency response, civil defence, and rescue operations including:

- Road traffic accidents
- Wildland fire fighting
- CBRN incidents
- Urban search and rescue
- Ambulance / paramedic response
- Police and public security
- Confined space rescue
- Water / mountain rescue
- Helideck and airborne SAR
- Coastguard and marine rescue

- Designed to comply with international standards, the ER1 Emergency and Rescue Helmet has a multi-adjustable headband and retractable visor
- The helmet can be fitted with a range of accessories, including communication systems, ear defenders, torch, full protective faceshield, forestry faceshield - a second outer helmet shell can be fitted for structural fire fighting use.
- Lightweight - less than 800 grms - comfortable and easily adjusted to fit male and female head shapes and sizes across a wide range of ethnic groups
- Manufactured in the UK by Helmet Integrated Systems - the leading international supplier of Cromwell and Argus helmets to the fire and police services and Alpha military and civil aircrew helmets
