

action and focus.

The new WorkTunes™ Pro Headset makes it simpler to include your favourite music in your working day. If you work in a noisy environment, you have every reason to choose a headset that not only help protect your hearing, but also pampers your ears. You won't be careless with your headset if the headset offers features you can't wait to use. Music can have that effect.

3M™ PELTOR™ WorkTunes™ Pro FM Headset

Hearing protection with built-in FM radio

Hearing protection and entertainment

The logic is simple - when you enjoy your work, you can get more done, faster and better. When you're listening to your favourite music, it puts you 'in the zone' where everyday tasks are easier and challenges are fun to tackle. The 3M™ PELTOR™ WorkTunes™ Pro Headset has a built-in AM/FM or FM-radio with easy channel searching, so you don't have to take off your hearing protection and risk being surprised by loud noises. The built-in antenna, fast digital tuning and ability to store

stations makes the hearing protector flexible and easy to work with.

The WorkTunes Pro Headset also lets you connect your cell-phone to the headset with a 3.5 mm jack. Suddenly you have access to all your playlists, podcasts and exciting audiobooks just a key-press away, no matter where you're working. And of course you have easy access to all incoming calls and signals on your phone. It may be easier to help protect your hearing when listening to your favorite music or radio station.

Your WorkTunes Pro Headset has a rugged design with dual shells. The electronics are protected from moisture and sweat, from both the inside and the outside. Smart technology, practical design and user friendly functions will help you weather rough days in the field.

To fit most users needs, the headset is available in both headband and helmet attachment. All in black colour.

Dual shell design

To protect the electronics from sweat inside the cup, all electronics are placed on the outside beneath the shell.

Large user-friendly push buttons

Voice guided menu system:

- Volume (8 steps)
- Search station (announced frequencies)
- Store station (up to 5 stations)
- Radio Band (AM/FM versions only)

3.5 mm jack

A listen-only stereo input to connect to a cell-phone, radio, two-way radio or other external devices (limited to 82 dB).

Stainless Steel Wire Headband

Wire headband offers comfortable and consistent pressure.

Built-in antenna

To avoid snags.

2xAA batteries

Lasting for approx. 40 hrs of use. The headset will turn off after 4 hrs of non-use to save batteries. A message will be heard when the battery is low.

Replaceable cushions and foam liners (hygiene kit)

Hearing Protection

Noise attenuating ear cups help provide hearing protection in environments with potentially hazardous noise.
