

TELEX

AIRMAN 8

NEXT GENERATION
ULTRA-LIGHTWEIGHT BATTERY-FREE
ACTIVE NOISE REDUCTION HEADSET

The new **AIRMAN 8** builds on the success of its predecessor's reputation - the AIRMAN 850, the only FAA TSO approved Active Noise Reduction aviation headset with battery-free operation.

The AIRMAN 8 offers a range of innovative new features for **increased comfort, durability and ease-of-use:**

- ANR reduces fatigue and improves intelligibility
- Soft headband pad and lightweight design provides comfort, even on long flights
- Strong stainless steel headband with metal pivots improves durability for long headset life
- New yoke design provides three axis adjustments and durability improvements
- Comfortable leatherette ear cushions and replaceable ear cup covers are included

The AIRMAN 8 meets the **highest commercial aviation standards:**

- Improved ANR and microphone noise cancellation ensures superior in-flight communication
- Innovative technology eliminates the need for batteries or special connections
- Fully FAA TSO C-139a approved
- Fully compliant to ARINC standards
- Acoustic limiter protects against sudden increases in sound level
- Clear voice transmission with high-quality amplified electret microphone
- Three-year warranty

FOR MORE THAN 50 YEARS, TELEX AVIATION HEADSETS HAVE PROVIDED PILOTS WITH AN UNPARALLELED COMBINATION OF PERFORMANCE, RELIABILITY AND VALUE.

Our profound understanding of the aviation industry is essential to the usability and durability of our products. They are the perfect choice for business and commercial applications, offering comfortable, lightweight, low-profile design and excellent sound quality - enabling pilots to focus on flying.
